N89s

# Picturesque Norwood.

---

NORWOOD was formerly a part of Dedham and was called South Dedham, until February 23, 1872, when it was incorporated as a separate township and called Norwood. Only fourteen miles from Boston it enjoys all the advantages that are derived from being near a large city. The school privileges are second to none and equal to any of the sister towns near Boston. The New York & New England Railroad provides easy transit to and from Boston. Industries, Churches, etc. are as represented by views. Population, 3000.
